Interview Summary

During a series of phone exchanges occurring from June 23 to July 8, 2008, Examiner Gebresilassie, Supervisory Patent Examiner Shah, and the undersigned discussed the claims of this case. In particular, the indication of allowable subject matter in the Final Office action, the amendment of May 23, and the subsequent Advisory Action of June 20 were discussed. On July 3, authorization was given for an Examiner's amendment, which the Examiner indicated would resolve all 35 U.S.C. 101 issues. Examiner Gebresilassie indicated that all claims would be allowed; subject to a further prior art search. Subsequently, on July 8, Examiner Gebresilassie indicated that no prior art was found that would support a new rejection and that all claims were allowable. The Examiner indicated that a Notice of Allowance was being prepared and that no further action was needed on the part of the Applicant.

Respectfully submitted,
